

When the war finally ended in May 1945, Lieutenant Danny McClain made good on his promise to come back for Anya in Holland. He expected her to put up a fight but instead found her exhausted and utterly broken. Maybe it was unfair, asking her to marry him when she was so vulnerable. But this much he knew: He would spend a lifetime helping to make her whole again. The war had taken everything from Anya - her family, her friends, her home, her faith. She clung to the walls she'd fortified around her heart, but what future did she have apart from Danny? At least she wouldn't be alone anymore. Or so she thought. When the American troops demobilized, Danny is sent home, forced to leave Anya behind in England. There she must wait with the other 70,000 war brides for passage to America. As England picks up the pieces of the war's debris in the months that follow, Anya shares a flat with three other war brides in London and rediscovers the healing bond of friendships. Once again Danny and Anya find themselves oceans apart, their marriage confined to little more than the handwritten pages of their letters while wondering if the shadow of war will ever diminish.
