

Blue Car Nights (The Zac Trilogy, Book 1)

Zac Lucas has never told anyone about his dreams not his parents, who died when he was a baby, not Ebeth, his best friend, and certainly not the Lexingtons, whose cold mansion has never felt like home and who are, as far as Zac is concerned, only related to him through bad luck. He has never told a soul that every night, for as long as he can remember, he has spent his dreams walking down a suburban street with Minty, a man who offers the kind of guidance, friendship and fatherly love Zac has not been able to find in his waking hours. Yet even while he carefully hides Minty's existence, Zac realizes his nighttime confidant has secrets of his own, ones that could alter Zac's entire daytime existence. As Minty starts to reveal his knowledge, Zac's real-life and subconscious worlds begin to collide, leading him down a lonely road that has the power to heal him completely or destroy him forever.
