

Hidden Fires (Chronicles of Nuala Book 2)

Closer to DUNE on an epic scale than to any of the Darkover or Pern novels.

Shiny Book Review (on The Chronicles of Nuala Series) ***** He had spent a hundred years seeking the woman called Silver; he still didn't know if he was going to kill her. On Nuala -- planet of deadly radiation levels, humans who heal by touch, and the rarest metal in the known galaxy -- is a meeting of two con artists ripe for mischief...and maybe murder. Two misplaced quests explode into a conspiracy of death, treason, and abduction.

REVIEWS Radiation, polyamory, and adventure As in the other two books, the action/adventure, while present, supports the real heart of the book, which are the complex, culturally-shaped relationships.

Deborah J. Ross, author of Seven-petaled Shield This is a book that you really need to read if you love science fiction, romance, or any blend of the two. Its complex, engrossing, honest, surprising, intelligent in how it deals with the problems of a completely different world with its own history and nuances, even more intelligent when it deals with the problems unwitting potential immigrants face on Nuala, and contains two realistic and root-worthy romances. Shiny Book Review when one of Katharine Kimbriels Nuala books comes into my hands, I am instantly hooked. The climactic scenes in the trinium mines are equal to any I have ever read in excitement and impact.

Quantum 39 There are books you read at one fast gulp, books you savor at a slower pace. For me, Kimbriels third action-packed science fiction novel is both: It isn't necessary to read either of the other books to understand and enjoy Hidden Fires but I'd highly recommend you do. Science Fiction Review

Chronicles of Nuala (3 Book Series). 2.) I loved the Allie stories. Will there be any more tales of Alfreda? Yes. E-books of the Chronicles of Nuala are now available from Book View Cafe. The next book in the Darame Sequence starts after Hidden Fires, and is This is a book that you really need to read if you love science fiction, romance, or any blend of the two. -- Shiny Book Review when one of Katharine Editorial Reviews.
