

An analyst in a humdrum business career in London's City. A devious enemy who revels in amusement at the misfortune of others. Chance encounters and events conspire to trigger an increasingly implausible escalation through security operations. What ensues are network activations, system weaknesses, international manoeuvres, ancient theories, revelations of ancestry, introspection to innovation and technologies from the darkest nightmares. The normal and the impossible intertwined in a daily diary file. A book of 125 distinct chapters, many of actual events, many bursting with originality, and yet all intricately woven into a unique connected coalescence of ideas. As one character asserts, it is like everything you wanted to know about a Black Op but were afraid to ask. And from these thousands of observed interactions come the personalities of the Department and the missing factor unraveling Belief, Economics and Nature and the most sinister and serious risk to human rights, and even human evolution.
