

## The First Law (Argon Adventures #4)

Someone going by the name of the Iconoclast is crippling Britannias electrical grid and claiming key political assassinations. The criminal population of the Dark Continent, consisting mostly of Necromancer and Whisperer recidivists, is revolting. There have also been massive gravitational disturbances coming from the bottom of the world, and to make matters worse, some of Neverlands creatures are breaking free, wreaking havoc in our world. It is all up to Wendy and her Hemomage partner to find the common thread between these events before Britannia falls. But when they do, will they be powerful enough to stop who is behind them? This is book four in the Argon Adventures series.
