

CAPTAIN NAZI 2 VOL. 2: 10 Chapters From The Classic WWI Era Comic Books

CAPTAIN NAZI The super-strong Captain Nazi was genetically altered by his scientist father, and developed into the perfect specimen in order to fight for Adolf Hitler and the Axis Powers during World War II. He is given superhuman strength and stamina, and a special flying gas allows him to fly. He is sent to battle American superheroes by the Nazis after his power is demonstrated to them by Hitler, and some of the heroes are shown. Nazi first appeared in Master Comics #21 (December 1941), in opposition to both Captain Marvel and Bulletman. During the second half of his battle with Marvel in Whiz Comics #25 (published the same month), Nazi attacks two innocent bystanders who happened to be fishing near the scene of the battle, after they pull him out of the lake and escapes in their boat. One of them, an old man named Jacob Freeman, is killed, but the old man's teenage grandson, Freddy Freeman, is saved by Captain Marvel although he is crippled and his back broken with a hit from an oar while Nazi escapes in the boat, but due to Captain Marvel bestowing part of his power to him, Freddy becomes Captain Marvel Jr. He is then sent to defeat Captain Nazi by Captain Marvel.
