

Change of the Heart (Love Inspired #181)

UNEXPECTED LOVE When a simple game of volleyball lands Carrie Collins in the emergency room, the feisty redhead is determined not to let a broken wrist interfere with her active life. Despite what the oh-so-serious but very handsome Dr. Rafe O'Connor has to say about taking it easy, Carrie finds herself searching for something to do when she's put on medical leave from her job. The chance to chaperone a group of teens on a church-sponsored mission trip seems an ideal distraction, when who should turn out to be the youth group leader but the good doctor himself! For some strange reason, the two of them don't seem to hit it off. But even the teenagers know that if Carrie and Rafe would just stop trying so hard... they might wake up and realize that they were meant for each other!
