

Pilgrimage to Chajul: Tales from Guatemala

Guatemala as the tourist sees it is a beautiful land of colourful people, interesting cities, markets, lovely lakes and volcanoes tucked away in the high hills of the central highlands. The reader is taken to places with names like Escuintla, Quezaltenango, San Pedro, Todos Santos, Nebaj, remote Chajul - and refugee settlements in south Mexico. But there is another side to the story. Terrible, matter-of-fact reports of massacres, torture, disappearances and murders by Guatemalan security forces and their death squads told in interviews with people on the cutting edge of Guatemala's struggle for justice.
