

OceanLife Volume 3 : Hawaiian Islands (2nd Edition)

The most complete collection of video on the fishes of the Hawaiian Archipelago, including the Johnston Atoll and Marshall Islands. The title features include enhanced still photography, a visual index to fish families, fast-display maps of the Hawaiian archipelago, Latin name access, and extended morphology information on bony fishes. With more than 90 species, this CD-ROM features video of heretofore undocumented fish behavior on such subjects as mating, predation, camouflage, brooding, and nesting. For educators, students, scuba divers, aquarists, and lovers of the ocean, this series lets you view the inhabitants of the ocean as never before possible.
