If you thought Mitch McDeere was in trouble in *The Firm*, wait until you meet Kyle McAvoy. Kyle McAvoy grew up in his father's small-town law office in York, Pennsylvania. He excelled in college, was elected editor-in-chief of *The Yale Law Journal*, and his future has limitless potential. But Kyle has a secret, a dark one, an episode from college that he has tried to forget. The secret, though, falls into the hands of the wrong people, and Kyle is forced to take a job he doesn't want, even if it's a job most law students can only dream about. Three months after leaving Yale, Kyle becomes an associate at the largest law firm in the world, where, in addition to practicing law, he is expected to lie, steal, and take part in a scheme that could send him to prison, if not get him killed. With an unforgettable cast of characters and villains, from drug-addled trust fund kid and possible rapist Baxter Tate to quiet former math teacher Dale who shares Kyle's cubicle at the law firm, *The Associate* is vintage Grisham.
