

What does the president of the Russian Federation want? A Eurasian Union incorporating the former Soviet republics - a new USSR, with President Putinov at its helm. What does he fear? Russias satellite states uniting against him and allying themselves to western Europe and NATO. What should he do about it? Of this he is certain. He initiates a new form of hybrid warfare, using deception, double-dealing and treachery. His first victim? Ukraine. Harvey Black leads the reader through a continent on the brink of war in the first book of his new Cold War - Redux series. Based on the real events of the 2014 Ukrainian revolution, Duplicity sees the birth of a campaign to return Russia to its former glory by a president who is willing to do whatever it takes to get what he wants, no matter the cost...
