

Voidfarer: A Tale of the Moonworlds Saga

At first Wayfarer Inspector Danolarian thought the huge oval thing that had fallen from the sky was a dragons egg. When it opened, however, he knew that it was much, much worse. His world was being invaded by pitiless sorcerers from Lupan, who could sweep whole armies aside, and even defeat the invulnerable glass dragons. Surrender or flight were the only options ... but not for Inspector Danolarian, his Wayfarer Constables, and his sweetheart, the sorceress Lavenci. Although Danolarian is no sorcerer, hes no ordinary Wayfarer either. Faced with civilization crumbling around him, and organized resistance shattered by the invincible magic of the Lupanians, he chances upon an unlikely ally and begins to fight back. It wont be easy, for he has to rally the demoralized sorcerers of Alberin, organize its terrified citizens, stay one step ahead of his own past, and, most importantly, survive a dinner party with Lavencis mother.
